

Colux cold Room: The insulated panel, made of polyurethane, covered by pre painted or steel sheet, or Aluminum-plastics composite plate, can decrease the heat transfer effect generated by the temperature difference and help to reach the most efficiency for freezing and cold system. Since the scientific, simple design and practical installation, the insulation system is a new system with low installation cost. Colored coating steel laminated foam plastic insulation panels. Manufactured by the way of outer binding board (colored coating steel plate, plywood board) and inner polystyrene foam with high adhesive, reinforced with heating and pressing, making into various lengths of supper-light insulating sandwich panel, meet all the demands of customers. Its features are light weight, good appearance, economic and no more decoration, long service life, widely applied for building freezer, insulation work shop clean, workshop, storage, cottages, gymnasium, cinema as well as other light steel structure roof and wall of large-sized public facilities.

Specification:

Serial number	Product name	Storage capacity	Cover an area of an area	The power	The basic configuration of storage
1	5 Tons - 5 ° ~ - 18 degrees Celsius freezer	20m ³	9m ²	2.8KW	Refrigeration unit, pressure control Electromagnetic valve, filter Expansion valves, Freon Condole evaporator and rods The frost hoses and elbow Copper brass nut welding tubes elbow Threading pipe lines and trough Computer automatic control box Insulation pipe and binding Polyurethane sealing materials Rivets and other hardware Waterproof lamp, refrigerator door Double color steel plate, library Other install auxiliary parts material
2	8Tons - 5 ° ~ - 18 degrees Celsius freezer	24m ³	11m ²	2.9KW	
3	10Tons - 5 ° ~ - 18 degrees Celsius freezer	40m ³	18m ²	3.5KW	
4	15Tons - 5 ° ~ - 18 degrees Celsius freezer	60m ³	28m ²	3.9KW	
5	20Tons - 5 ° ~ - 18 degrees Celsius freezer	80m ³	37m ²	4.3KW	
6	25Tons - 5 ° ~ - 18 degrees Celsius freezer	100m ³	46m ²	4.8KW	
7	30Tons - 5 ° ~ - 18 degrees Celsius freezer	120m ³	55m ²	5.3KW	
8	35Tons - 5 ° ~ - 18 degrees Celsius freezer	140m ³	64m ²	6.1KW	
9	40Tons - 5 ° ~ - 18 degrees Celsius freezer	160m ³	73m ²	6.9KW	
10	50Tons - 5 ° ~ - 18 degrees Celsius freezer	200m ³	91m ²	8.4KW	
11	80Tons - 5 ° ~ - 18 degrees Celsius freezer	320m ³	146m ²	13.6KW	

Note: The above walks in cooler units are rated at (-) 35° C inside room Temp.
