

Colux Fountain Type Electric Water Coolers

Cabinet :

Complete cabinet made of stainless steel.

Refrigeration :

Fitted with world renowned, high starting torque, high back pressure compressors. Condenser and fan motor slightly oversized to ensure efficient working in high ambient. Copper cooling coil metal bonded to out side water tank. Whole system hermetically sealed with refrigerant 134a.

Water System :

All copper/ brass water system large capacity water tanks made of AISI -304 stainless steel. Tank Safety tested at 12kg/cm² (150 Psi) with recommended maximum working pressure of 5kg/cm² (71 Psi) fitted with high quality chrome brass taps.

Insulation: Moisture proof and high effective polyurethane.

Thermostat: High quality water temperature control thermostat adjustable 9°C to 12°C (48° F to 60° F).

Voltage Rating: All models operate on 220/240 Volts 50/60 cycle single phase A/C Supply.

Technical Data

Model	Capacity in liters	Compressor	Number of people served
CWF-20	20 Liters	1/5 HP	30
CWC-30	30 Liters	¼ HP	40
CWF-40	40 Liters	3/5 HP	70
CWF-60	60 Liters	½ HP	100

Dimensions

Model	Height	Width	Depth
CWF-20	44 inch	18 inch	14 inch
CWC-30	46 inch	18 inch	14 inch
CWF-40	48 inch	18 inch	14 inch
CWF-60	50 inch	18 inch	14 inch
